### Important notes

In the end of the day, you will be encouraged to get **in students' shoes!**

What are you expected to do?

- To select a maker activity/project of your preference
- To select a convenient time for you to implement the maker/activity. *It can be anytime that suits to your schedule but not after our meeting on the 30<sup>th</sup> of September at 17h00 CET.*
- To enter the students' dashboard using your credentials and carry out your maker activity/project using the ASSESSMAKE21 tool.

**Flexible scheme:** You are free to select the maker activity/project that you are going to carry out!

**Should the project be done with specific tools, materials, technologies?**

It is up to you to select the tools, materials, and technologies that you are going to work with! You may decide to focus only on paper modelling and crafting! That's perfectly fine!

What about the duration of the maker activity/project?

The maker activity/project that can be implemented within few minutes or last longer. It is totally up to you!

Are there any easy to start with examples of maker activities/projects?

Sure! [Here is a list](#) that you can go through to get some ideas.

Where should I carry out the maker activity/project?

Whatever works better for you! In your home, in a makerspace, in the in-school makerspace, outdoors...

Should I work alone or with others?

We highly encourage teamwork, but we understand that this might not be possible given the COVID-19 constrains. Choose what better suits to you!

## Day 3
